## DETAILED ACTION

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Berringer et al. (USP 5,103,148). Berringer discloses a delay circuit-RC circuit (21 and 22) an output circuit that generates a supply voltage that is delayed by the delay circuit and a bootstrap circuit (15) that heightens an input impedance of the output

circuit.

***Response to Arguments***

3. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
